LIST OF CONTENTS

Volume 10, Number 1

Viewpoint	1	The Asian Financial Crisis — is it good for the global environment? *Toufiq A. Siddiqi*
Papers	9	Policy history of the US Global Change Research Program: Part I. Administrative development *Roger A. Pielke Jr*
	27	The clean development mechanism: proposals for its operation and governance *Erik Haites and Farhana Yamin*
	47	Land use vs. climate as causes of vegetation change: a study in SE Arizona *Charles F. Hutchinson, Jon D. Unruh and Conrad J. Bahre*
	57	A co-evolutionary approach to climate change impact assessment: Part I. Integrating socio-economic and climate change scenarios *Irene Lorenzoni, Andrew Jordan, Mike Hulme, R. Kerry Turner and Tim O'Riordan*
	69	Agricultural impacts of climate change in Spain: developing tools for a spatial analysis *Ana Iglesias, Cynthia Rosenzweig and David Pereira*
UNU Monitor	81	Climate Affairs as a next-generation environmental science *Michael Glantz and Zafar Adeel*
Institutions	87	Joint implementation *Farhana Yamin*

Volume 10, Number 2

Viewpoint	93	Cairo and climate change: a win–win opportunity *Brian C. O'Neill*
Papers	97	Exploring the concept of climate surprise *D.G. Streets and M.H. Glantz*
	109	Linking global and local scales: designing dynamic assessment and management processes *David W. Cash and Susanne C. Moser*
	121	Equity and the Kyoto Protocol: measuring the distributional effects of alternative emissions trading regimes *Gary W. Yohe, David Montgomery and Ed Balistreri*
	133	Policy history of the US Global Change Research Program: Part II. Legislative process *Roger A. Pielke Jr.*
	145	A co-evolutionary approach to climate change impact assessment: Part II. A scenario-based case study in East Anglia (UK) *Irene Lorenzoni, Andrew Jordan, Tim O'Riordan, R. Kerry Turner and Mike Hulme*
UNU Monitor	157	Institutional mechanisms for sustainable development: a look at national councils for sustainable development in Asia *Brook Boyer*
Institutions	161	Institutions for controlling the global trade in hazardous chemicals: the 1998 Rotterdam Convention *Peter Hough*

Volume 10, Number 3

View point	165	Socio-economic scenarios for climate impact assessment *Frans Berkhout and Julia Hertin*
Papers	169	Citizens' perspectives on climate change and energy use *Bernd Kasemir, Urs Dahinden, Åsa Gerger Swartling, Ralf Schüle, David Tabara and Carlo C. Jaeger*
	185	Agricultural soil carbon accumulation in North America: considerations for climate policy *Susan Subak*
	197	Global climate change and the effect of conservation practices in US agriculture *Noel D. Uri and Herby Bloodworth*
	211	Four views of "regional" in regional environmental change *Peter Cebon and James Risbey*
	221	Double exposure: assessing the impacts of climate change within the context of economic globalization *Karen L. O'Brien and Robin M. Leichenko*
UNU Monitor	233	Focusing on the real environmental culprits — urban areas UNU's City Inspirations Initiative *Hari Srinivas*
Institutions	237	ASEAN's environmental regime: pursuing sustainability in Southeast Asia *Lorraine Elliott*

Volume 10, Number 4

Viewpoint	241	Distributed assessment systems: an emerging paradigm of research, assessment and decision-making for environmental change *David W. Cash*
Papers	245	Globalization, the bioscience industry and local environmental responses *David Gibbs*
	259	Community forest management in Mexico: carbon mitigation and biodiversity conservation through rural development *Daniel Klooster and Omar Masera*
	273	Design alternatives for a domestic carbon trading scheme in the United States *K. John Holmes and Robert M. Friedman*
	289	Climate change and biodiversity conservation in Great Plains agroecosystems *Qinfeng Guo*
	299	Beyond peasant deforestation: environment and development in rural Jamaica *Tony Weis*
UNU Monitor	307	Prospects for Rio + 10 the need for an inter-linkages approach to global environmental governance *Jerry Velasquez*
Institutions	313	The 2000 Cartagena protocol on biosafety: legal and political dimensions *Peter Newell and Ruth Mackenzie*
